1.3 Any defined terms which are not defined in this DPA are as defined in the MLSA.

1.4 Additional requirements for certain jurisdictions are set out in Schedule 5.

2 Roles and compliance with Data Protection Laws.

2.1 Customer is the controller of Personal Data, and Vendor is the processor of Personal Data. Each party will comply (and will procure that any of its personnel comply and use commercially reasonable efforts to procure that its sub-processors comply), with Data Protection Laws applicable to such party in the processing of Personal Data. As between the parties, Customer shall have sole responsibility for the accuracy, quality, and legality of Personal Data and the means by which the Personal Data was acquired.

3 Description of Processing

3.1 The Subject matter, nature and purposes of the processing, duration, types of Personal Data and categories of Data Subject are set out in Schedule 1.

3.2 *Processing by Vendor.* As a processor, Vendor will only process Personal Data (i) in order to provide the Vendor Services to Customer or (ii) per Customer’s reasonable instructions in writing or via the Vendor Services. Vendor will notify Customer (unless prohibited by applicable law) if it is required under applicable law to process Personal Data other than pursuant to Customer’s instructions or to provide the Vendor Services. As soon as reasonably practicable upon becoming aware, Vendor shall inform the Customer if, in Vendor’s opinion, any instructions provided by the Customer under this clause 3 infringes applicable Data Protection Laws. Upon termination of the Agreement and upon written request of the Customer, Vendor shall return or securely delete the Personal Data, unless required by law to continue to store a copy of the Personal Data.

3.3 *Customer Instructions.* Vendor shall Process Customer Personal Data to provide the Vendor Services in accordance with the MLSA, this DPA, any applicable Quotation and Statement of Work, and any instructions agreed upon by the Parties in writing.

4 Technical and Organisational Security Measures

4.1 Vendor will implement, as a minimum, the technical and organizational security measures set out in Schedule 2 that are appropriate to the risks that are presented by the processing of Personal Data, in particular protection against accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to Personal Data.

4.2 Vendor will take reasonable steps to ensure that only authorised personnel have access to Personal Data and that any persons whom it authorizes to access Personal Data are under obligations of confidentiality.

5 Security Breaches, Data Subject Requests & Further Assistance

5.1 *Security Breaches*. Vendor will notify Customer of any Security Breach without undue delay.

5.2 *Data Subject Requests.* To the extent legally permitted, Vendor will promptly notify Customer if it receives a Data Subject Request. Vendor will not respond to a Data Subject Request without Customer's agreement, provided that Customer agrees Vendor may at its discretion respond to the data subject to confirm that such request relates to Customer. Customer acknowledges and agrees that the Vendor Services may include features which will allow Customer to manage Data Subject Requests directly through the Vendor Services without

additional assistance from Vendor. If Customer does not have the ability to independently respond to a Data Subject Request, Vendor will, upon Customer's written request, provide reasonable assistance to facilitate Customer's response to the Data Subject Request to the extent such assistance is consistent with applicable law; provided that Customer will be responsible for paying for any costs incurred or fees charged by Vendor for providing such assistance.

5.3 *Further Assistance.* Taking into account the nature of processing and the information available to Vendor, Vendor will provide such assistance as Customer reasonably requests in relation to Customer's obligations under Data Protection Laws with respect to (i) data protection impact assessments including consultation with the Supervisory Authority, (ii) notifications to the Supervisory Authority under Data Protection Laws and/or communications to data subjects by the Customer in response to a Security Breach, or (iii) Customer's compliance with its obligations under applicable Data Protection Laws with respect to the security of processing. Customer will pay any costs or fees charged by Vendor for providing the assistance in this Section 5.3.

6 Sub-processing

6.1 Customer grants a general authorisation to Vendor to appoint its Affiliates or third parties as sub-processors to support the performance of the Vendor Services, including data centre operators, cloud-based software providers, and other outsourced support and service providers. Vendor will maintain a list of sub-processors and will communicate to the Customer any intended changes to the sub-processor list at least thirty (30) days before such change takes effect. If Customer has a reasonable objection to any new or replacement sub-processor, it shall notify Vendor of such objections in writing within fifteen (15) days of receipt of the notification and the parties will seek to resolve the matter in good faith. If Customer, acting reasonably, is not reasonably satisfied that the sub-processor meets the security and privacy protections of applicable Data Protection Law then Customer, as its sole remedy may, within such 15-day period, terminate that part of the Agreement which relates to the impacted Products only.

6.2 Vendor will enter into a written contract with each sub-processor which imposes on such sub-processor terms no less protective of Personal Data than those imposed on Vendor in this DPA (the "Relevant Terms"). Vendor shall be liable to Customer for any breach by such sub-processor of any of the Relevant Terms to the extent required under Data Protection Law.

7 International Transfers and Processing

7.1 Customer agrees that its use of the Vendor Services will involve the transfer of Personal Data to, and processing of Personal Data by Vendor and its sub-processors in, locations outside of the country from which the Personal Data originates, for the purposes of providing the Vendor Services and support to Customer.

7.2 To the extent Personal Data is transferred by Vendor for further processing to a sub-processor outside the EEA, UK or Switzerland (except if in an Adequate Country) in circumstances where such transfer would be prohibited by applicable Data Protection Laws in the absence of an approved transfer mechanism, Vendor will enter into the appropriate terms with the sub-processor to legitimise the transfer in accordance with applicable Data Protection Laws.

8 Audit and Records

8.1 Vendor shall make available to the Customer such information in Vendor's possession or control as Customer may reasonably request with a view to demonstrating Vendor's compliance with the obligations of Vendor under this DPA in relation to its processing of Personal Data.

9 General

9.1 *Conflicts.* This DPA is without prejudice to the rights and obligations of the parties under the MLSA which shall continue to have full force and effect. In the event of any conflict between the terms of this DPA and the terms of the MLSA, the terms (including definitions) of this DPA shall prevail so far as the subject matter concerns the processing of Personal Data by Vendor as a processor. The English language version of this DPA shall be the governing version used when interpreting or construing this DPA. This DPA sets out all of the terms that have been agreed between the parties in relation to the subjects covered by it. Other than in respect of statements made fraudulently, no other representations or terms shall apply or form part of this DPA.

9.2 *Limitation of Liability.* Vendor's maximum aggregate liability to Customer under or in connection with this DPA shall not under any circumstances exceed the maximum aggregate liability of Vendor to the Customer as set out in the MLSA. Nothing in this DPA will limit Vendor's liability for any liability or loss which may not be limited by agreement under applicable law.

9.3 *Governing Law; Venue.* Without prejudice to the provisions of the EU Clauses, Swiss Addendum and the UK Approved Addendum addressing the law which governs them, this DPA shall be governed by and construed in accordance with the laws which govern the MLSA and the venue(s) for disputes and claims under the MLSA shall also apply to disputes and claims under this DPA.
